

### Свойства

|                               |                                |
|-------------------------------|--------------------------------|
| Съединение 1                  | външна резба BSP цилиндрична   |
| Форма на уплътнение 1         | форма В                        |
| Съединение 2                  | вътрешна резба BSP цилиндрична |
| Конструкция                   | променлив редуктор             |
| Модификация                   | дълъг                          |
| Стандарт                      | DIN 2353<br>ISO 8434-1         |
| Материал                      | стомана                        |
| Повърхностно защитно покритие | с галванично покритие          |

### Указание

Указания за монтаж, сглобяване, натоварване на налягане и допустими работни температури можете да видите от техническата информация за резбови тръбни съединения.

### Артикул

### Варианти на продукта

|        |   |
|--------|---|
| RIL MG | Променлив редуктор, дълъг, месинг             |
| RIL VA | Променлив редуктор, дълъг, благородна стомана |
