K-WASSERSACKROHR U SCHWEISSANSCHL

Siphons, U-shaped, with welded connection on pressure tap side

Properties

Design	With male connector or welded connection on the pressure tap side
Pressure tap	Horizontal (U-shaped), Vertical (circular)
Female/female connector	Acc. to DIN 16283, AF 27
Material	Steel or Stainless steel

Note

Further information on request

Description

Suitable as a cooling section for liquids, gases or steam during pressure measurements. The use of a siphon permits the medium to cool down to a temperature that is compatible with the pressure gauge and protects the gauge against pulsating media. The condensate that forms in the siphon prevents the hot medium from entering the pressure gauge. We recommend filling the siphon with cooling sealing liquid prior to using the pipe.

Item

Identification	Thread	Material
K- 07 20 11 68	G 1/2	Steel 1.0039, 1.0345
K- 07 20 11 69	G 1/2	CrNi steel 1.4571
