

## Свойства

|                               |                              |
|-------------------------------|------------------------------|
| Съединение 1                  | външна резба BSP цилиндрична |
| Форма на уплътнение 1         | 60° вътрешен конус           |
| Съединение 2                  | външна резба NPT             |
| Форма на уплътнение 2         | уплътняващ резбата           |
| Конструкция                   | накрайник с холендър         |
| Модификация                   | права                        |
| Материал                      | стомана                      |
| Повърхностно защитно покритие | с галванично покритие        |

## Артикул

| Обозначение    | G1           | G2               | SW<br>(mm) |
