K-WASSERSACKROHR U SCHWEISSANSCHL

Siphons, U-shaped, with welded connection on pressure tap side

Savybės

Konstrukcija	With male connector or welded connection on the pressure tap side
Slėgio ėmimas	Horizontal (U-shaped), Vertical (circular)
Įtempimo mova	Acc. to DIN 16283, AF 27
Medžiaga	Steel or Stainless steel

Aprašas

Suitable as a cooling section for liquids, gases or steam during pressure measurements. The use of a siphon permits the medium to cool down to a temperature that is compatible with the pressure gauge and protects the gauge against pulsating media. The condensate that forms in the siphon prevents the hot medium from entering the pressure gauge. We recommend filling the siphon with cooling sealing liquid prior to using the pipe.
