K-WASSERSACKROHR KR SCHWEISSANSCH

Siphons, circular, with welded connection on pressure tap side

Свойства

Изпълнение	With male connector or welded connection on the pressure tap side
поемане на налягане	Horizontal (U-shaped), Vertical (circular)
стягаща муфа	Acc. to DIN 16283, AF 27
Материал	Steel or Stainless steel

Други данни при запитване.

Описание

Suitable as a cooling section for liquids, gases or steam during pressure measurements. The use of a siphon permits the medium to cool down to a temperature that is compatible with the pressure gauge and protects the gauge against pulsating media. The condensate that forms in the siphon prevents the hot medium from entering the pressure gauge. We recommend filling the siphon with cooling sealing liquid prior to using the pipe.
