

# K-AUFSTECKKANZEIGE DIGITAL

Digital plug-in display

**HANSA FLEX**

## Свойства

|                         |   |
|-------------------------|---|
| дисплей                 | 4-digit 7-segment LCD display. Digit height 10 mm |
| работна температура     | 0 °C to +50 °C                                    |
| входящ сигнал           | 4 to 20 mA, 2-wire                                |
| електрическо съединение | Adapter for plug to DIN 43650                     |
| точност                 | ± 0.2% ± 1 digit of span                          |
| вид защита              | IP 65   |
| електрозахранване       | From 4 to 20 mA loop of transmitter               |

## Указание

Други данни при запитване.

## Описание

The digital plug-in display is freely programmable and easily mounted, and can therefore be retrofitted in a very short time without any problems, even if the transmitter is already in use. No external power supply is required. Suitable for all 4 to 20 mA transmitters with a right-angle connector. Freely programmable by means of keys inside the display.
