

Свойства			
диапазон на налягане	Max. 25 bar		
препоръчителни маркучи	PTFE hose		
Температурен диапазон	-40 °C to +200 °C (depending on the hose quality and diameter)		
Материал	благородна стомана 1.4404		
уплътнение	Pure metal

Описание

Supplied without seals. For use with corrosive media and at high temperatures. Screw fitting series made of stainless steel for all applications where compliance with strict tightness, pressure and temperature requirements is essential. The parts are manufactured without rubber seals, in other words they are ideal for very high temperatures or for use with corrosive liquids, e.g. in cases when FPM is no longer suitable.
