протичане	25 l/min (at 5 bar)
корпус	Brass with a bare metal surface
вложка на клапан	chromium steel
гумена обвивка	EPDM

Указание

Други данни при запитване.

Описание

Ideal for cleaning in industry and manual trades. The thick rubber coating provides thermal insulation for the hot or cold water flowing inside as well as impact protection. The flow rate is controllable with the adjustment screw (using a coin). The steel shackle allows the lever to be latched for extended use. Also suitable for drinking water.
