

# K-ELKT SIGNALGEBER D

Solid state sensor D

**HANSA FLEX**

## Свойства

|                   |       |
|-------------------|-------|
| електрически вход | axial |
| дължина кабел     | 3 m   |
| серия             | D     |

## Описание

Electronic transducer, series D-M9P, round profile groove, version: with LED, electrical input port axial, 3-wire PNP, with 3.0 m cable

## Артикул

| Обозначение    | Изпълнение                                | дефиниция           |
|----------------|---|---------------------|
| K- 07 50 00 03 | with LED, with grommet, without connector | electronic signaler |
| K- 07 50 00 04 | with LED, with M8 connector (3 pin)       | electronic signaler |
| K- 07 50 00 05 | with LED, with grommet, without connector | electronic signaler |
