

# K-VSTO PP

## Plugs

### Vlastnosti

Pracovní tlak	on request
Provozní teplota	Max. +20 °C
Materiál	Polypropylene (PP)
Těsnicí materiál	Nitrilkaučuk

### Upozornění

Další údaje na dotaz.

### Popis

Lightweight, push-in fittings distinguished by high strength, toughness, resistance to abrasion and impact resistance - ideal for a wide range of applications. Plastic and metal tubes are connected together quickly and easily. Suitable for compressed air or liquids, with good resistance to a large number of chemicals.
