

K-ELKT SIGNALGEBER D

Solid state sensor D

HANSA FLEX

Vlastnosti

Elektrický vstup axial

Délka kabelu 3 m

Řada D

Popis

Electronic transducer, series D-M9P, round profile groove, version: with LED, electrical input port axial, 3-wire PNP, with 3.0 m cable

Výrobek

Označení	Provedení	Definice
K- 07 50 00 03	with LED, with grommet, without connector	electronic signaler
K- 07 50 00 04	with LED, with M8 connector (3 pin)	electronic signaler
K- 07 50 00 05	with LED, with grommet, without connector	electronic signaler
