

DG HB IR

Rotary fitting, ball bearing

HANSA FLEX

Properties

Connection 1 BSP external thread, cylindrical

Sealing form 1 60° inner cone + shape E

Connection 2 BSP cylindrical internal threads

Sealing form 2 Shape A

Design Rotary fitting

Construction type Ball guided

Construction straight

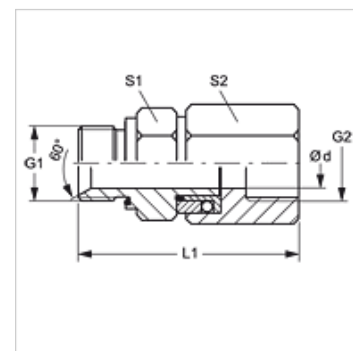

Temp. min. -30 °C

Temp. max. 95 °C

Media Oil

Material Steel

Surface electro galvanised

Note

For technical reasons, a minimum working pressure of 10 bar is required.

Item

Identification	Operating pressure	Ø d (mm)	G1 + G2	L1 (mm)	S1	S2
DG HB 10 IR	PN 300	8	G 3/8" -19	89,5	24	24
DG HB 13 IR	PN 300	10	G 1/2" -14	89,5	27	32
