

SRD-F

Cutting ring

Properties

| | |
|--------------------------|--------------------|
| Design | Cutting ring |
| Construction type | French series |
| Material | Steel |
| Surface | electro galvanised |

Note

Information about fitting, installation, pressure loads and permissible operating temperatures can be found in the technical information for pipe fittings.

Item

| Identification | Operating pressure | Ø d2 (mm) | L1 (mm) |
|----------------|--------------------|--------------|------------|
| SRD 13 | PN 400 | 13,25 | 10,0 |
| SRD 17 | PN 400 | 16,75 | 10,0 |
| SRD 21 | PN 250 | 21,25 | 10,0 |
| SRD 27 | PN 250 | 26,75 | 10,5 |
| SRD 33 | PN 160 | 33,50 | 10,5 |

Series: LL = Very light L = Light S = Heavy – PN = Nominal pressure PB = Max. operating pressure – Ø d2 = External pipe diameter
