## SKL IN F SN78 SK

Screw coupling (loose)

Properties					
Application	Industry and automotive engineering				
Connection 1	NPT internal thread				
Sealing form 1	thread seal				
Residual pressure:	Coupling under residual pressure is possible				
Additional feature	Hexagonal design				
Material	Brass				

## Description

Screw couplings are designed for high pressures and pressure pulses.

## Additional information

The robust construction makes them ideal for use in harsh conditions.

Item						
Identification	DN*	Connecting thread	Operating pressure (bar)	Mineral oil temp. min.	Mineral oil temp. max.	SF coup.*
SKL 20 IN F SN78 SK	19	NPT 3/4" -14	207,0	-40	90	2
SKL 25 IN F SN78 SK	25	NPT 1" -11,5	207,0	-40	90	2
SKL 32 IN F SN78 SK	31	NPT 1.1/4" -11,5	190,0	-40	90	2
SKL 40 IN F SN78 SK	38	NPT 1.1/2" -11,5	175,0	-40	90	2

DN = Nominal diameter, nominal width - SF gek. = Safety factor coupled
