

Properties				
Application	Industry and automotive engineering			
Design	Snap-tite series 78			
Connection 1	BSP cylindrical internal threads			
Sealing form 1	for screw-in pins with shapes A, B and if necessary E			
Residual pressure:	Coupling under residual pressure is possible			
Additional feature	with wing nut			
Material	Brass			

Description

Screw couplings are designed for high pressures and pressure pulses.

Additional information

The robust construction makes them ideal for use in harsh conditions.
