

Properties						
Application	Offshore applications, oilfields, tools etc.					
Design	Snap-tite series 75					
Connection 1	BSP cylindrical internal threads					
Sealing form 1	for screw-in pins with shapes A, B and if necessary E					
Residual pressure:	Coupling under residual pressure is possible					
Material	Steel					
Surface	electro galvanised					

## Description

Screw couplings are designed for high pressures and pressure pulses.

## Additional information

The robust construction makes them ideal for use in harsh conditions.
