HK 622
Measuring turbine

Properties

Connections	1/4 - female thread"
Design	with connections for volumetric flow, pressure and temperature
Temp. min.	0 °C
Temp. max.	90 °C
Material	Aluminium housing
Surface	anodised
Use	For gauge HK PTQCheck

Description

Independent of position, one measuring direction
Various measuring ranges up to 600 l/min
Measuring accuracy ±2 % of range limit value
Output signal: Frequency

Ordering information

Further accessories and gauges with additional options available on request.

Item

Identification	Measuring range	Pressure max. (bar)	Overload pressure max. (bar)	G1	L (mm)	Weight (kg)
HK 6222 025	1 to 25 l/min	400	420	G 1/4”	120	0,45
HK 6226 300	15 to 300 l/min	400	420	G 1.1/4”	155	0,90
HK 6228 600	40 to 600 l/min	400	420	G 1.1/2”	173	1,70

Accessory for following products

HK PTQ CHECK	Digital hand-held gauge, 5-channels

Additional elements

HK PQT	Combination instrumentation cable
HK PML	Single instrumentation cable
