

# HK HC 01

## 2-way pressure balance

### Properties

<b>Design</b>	Sandwich body valve pilot-controlled
<b>Operating pressure</b>	max. 350 bar
<b>Volumetric flow</b>	max. 50 l/min
<b>Connection</b>	ISO/Cetop 03 size 6

### Note

These valves must be set according to the application.

### Description

Sandwich body valve for constructing sandwich arrangements with ISO/Cetop 03 size 6 valves

The pressure balance maintains a constant pressure differential between connection P and connection A or B of the valve, to ensure that a constant flow rate is maintained in the event of pressure variations. The control pressure is diverted by the built-in shuttle valve.

### Ordering information

Further sandwich body valves available on request
