

### Properties

<b>Design</b>	Vertical installation position, gas side top
<b>Operating pressure</b>	max. 350 bar
<b>Temp. range</b>	Standard version -15 °C to +80 °C
<b>Material</b>	Bladder: NBR standard version

### Note

Repair kits, see HK IHV...REPKIT

Gas charge pressure  $p_0$  – between  $0.9 p_1$  and  $0.25 p_2$  ( $p_1$  = min. system pressure,  $p_2$  = max. system pressure)

CE label for all bladder accumulators

### Ordering information

The accumulators will be delivered uncharged from stock. N2-chargings according to customer requirements arise separate costs.

Item
