HK MPF GEH

Housing for return flow filter MPF

Properties

Design	with bypass valve 1.75 bar, without clogging indicator without filter element
Operating pressure	max. 8 bar

Note

Dimension "C": clearance required for changing the filter element

Description

Return flow filter for fitting into the tank cap; dimensions for drilling pattern see graphic.
Connector for clogging indicator G 1/8” closed with bolt

Ordering information

Filter element is not included. Please order separately.
