SKS IR 2 MULTI Q

Square multi coupling (loose)

Properties

Application	Industry Transport and municipal vehicles Agricultural technology
Connection 1	BSP cylindrical internal threads
Connection 2	Connectors
Design	Multicoupling
Construction type	Panel construction as quick-change system
max: Flow	40 L/min

Description

Quick release couplings are used when add-on parts need to be replaced frequently.

Additional information

Multi couplings offer considerable benefits
over bundled screw and plug-in couplings:
- Time saving factor due to fast and convenient exchange of add-on parts
- Convenient handling with simultaneous coupling of multiple connections
- Trouble-free coupling even if system pressures are applied
- No confusion between connections, no reversal of flow paths
- Flat seal valves prevent oil leakages, air admittance and

allows efficient cleaning even in soiled working environments

Item

Identification	Connecting thread	Operating pressure (bar)
