

SKS IR 2 MULTI Q

Square multi coupling (loose)

Properties

| | |
|--------------------------|---|
| Application | Industry Transport and municipal vehicles Agricultural technology |
| Connection 1 | BSP cylindrical internal threads |
| Connection 2 | Connectors |
| Design | Multicoupling |
| Construction type | Panel construction as quick-change system |
| max: Flow | 40 L/min |

Description

Quick release couplings are used when add-on parts need to be replaced frequently.

Additional information

Multi couplings offer considerable benefits over bundled screw and plug-in couplings:

- Time saving factor due to fast and convenient exchange of add-on parts
- Convenient handling with simultaneous coupling of multiple connections
- Trouble-free coupling even if system pressures are applied
- No confusion between connections, no reversal of flow paths
- Flat seal valves prevent oil leakages, air admittance and allows efficient cleaning even in soiled working environments

Item

| Identification | Connecting thread | Operating pressure (bar) |
