SKS IR 2 MULTI Q

Square multi coupling (loose)

Properties			
Application	Industry Transport and municipal vehicles Agricultural technology		
Connection 1	BSP cylindrical internal threads		
Connection 2	Connectors		
Design	Multicoupling		
Construction type	Panel construction as quick-change system		
max: Flow	40 L/min		

Description

Quick release couplings are used when add-on parts need to be replaced frequently.

Additional information

Multi couplings offer considerable benefits

over bundled screw and plug-in couplings:

- Time saving factor due to fast and convenient exchange of add-on parts
- Convenient handling with simultaneous coupling of multiple connections
- Trouble-free coupling even if system pressures are applied
- No confusion between connections, no reversal of flow paths
- Flat seal valves prevent oil leakages, air admittance and allows efficient cleaning even in soiled working environments
