

HK FMP

Housing for pressure filter FMP 320 bar

HANSA FLEX

Properties

| | |
|--------------------|--|
| Design | without bypass valve, without clogging indicator without filter element |
| Operating pressure | max. 320 bar |

Note

Measurement "B": clearance required for changing the filter element

Description

Pressure filter for pipeline installation

Design (Qmax.) for medium ISO VG 46
at 50°C (30 mm²/s) at $\Delta p_{tot} = 1.25$ bar

Ordering information

Filter element is not included. Please order separately.
