SKM IR FS MULTI FL

Multi-coupling fixed half flat

Properties			
Application	construction plant		
Connection 1	BSP cylindrical internal threads		
Connection 2	Plug in sleeve		
Residual pressure:	Coupling under pressure to approx. 200 bar		
Design	Multicoupling		
Construction type	quick change system, 2 fold		
Scope of supply	with weatherproof dust plate		
max: Flow	90 L/min		
Material	Steel		
Surface	Zinc-nickel		

Description

extremely flat - optimal mechanics Stable design, high-strength and hardened materials Couple with one throw of a lever Modular construction

Additional information

Multi couplings offer considerable benefits over bundled screw and plug-in couplings:

- Time saving factor due to fast and convenient exchange of add-on parts
- Convenient handling with simultaneous coupling of multiple connections
- Trouble-free coupling even if system pressures are applied
- No confusion between connections, no reversal of flow paths
- Flat seal valves prevent oil leakages, air admittance and allows efficient cleaning even in soiled working environments
