SKS IR FS MULTI FL

Multi-coupling loose half flat

Properties

Application	construction plant
Connection 1	BSP cylindrical internal threads
Connection 2	Connectors
Residual pressure:	Coupling under pressure to approx. 200 bar
Design	Multicoupling
Construction type	quick change system, 2 fold
Properties	extremely flat - optimal mechanics Stable design, high-strength and hardened materials Modular construction Couple with one throw of a lever
max: Flow	90 L/min
Material	Steel
Surface	Zinc-nickel

Description

Quick release couplings are used when add-on parts need to be replaced frequently.

Item

Identification	Connecting thread	Operating pressure (bar)	Size
SKS 20 IR 3 FS MULTI FL	G 3/4" -14	330,0	3

Accessories

SKS ZUBS MULTI FL	Holder for multi-coupling
