SKS IR FS MULTI FL

Multi-coupling loose half flat

Properties			
Application	construction plant		
Connection 1	BSP cylindrical internal threads		
Connection 2	Connectors		
Residual pressure:	Coupling under pressure to approx. 200 bar		
Design	Multicoupling		
Construction type	quick change system, 2 fold		
Properties	extremely flat - optimal mechanics Stable design, high-strength and hardened materials Modular construction Couple with one throw of a lever		
max: Flow	90 L/min		
Material	Steel		
Surface	Zinc-nickel		

Description

Quick release couplings are used when add-on parts need to be replaced frequently.
