

# K-MANO ABSPH MUF MUF

Pressure gauge stopcocks, female - female

**HANSA FLEX**

## Properties

|                       |   |
|-----------------------|---|
| <b>Application</b>    | For all pressure gauges with a flat gasket acc. to DIN 16258                                    |
| <b>Pressure range</b> | Max. 16 bar, depending on the variant Pressure gauge valves should be used for higher pressures |
| <b>Temperature</b>    | Max. +50 °C   |
| <b>Housing</b>        | Brass with a bare metal surface or stainless steel 1.4571                                       |
| <b>Handle</b>         | Plastic   |
| <b>Test flange</b>    | -   |

## Note

K-07201090, K-07201091 in acc. with DIN 16261-A, K-07201096, K-07201097 in acc. with DIN 16261-B <br>K-07201128, K-07201129 in acc. with DIN 16262-A, K-07201127 in acc. with DIN 16262-B  
Further information on request

## Description

It is useful to install a stopcock as a shut-off element between the pressure gauge and the pipe. When the lever is set to the »blow out« position, the medium is discharged into the atmosphere. Stopcocks with a test port allow pressure gauges to be simultaneously connected to the pipe.

## Additional information

Further measuring ranges on request

Version for panel mounting available on request. Version with max. pointer available on request

## Item

| Identification | Thread | PN (bar) | AF (mm) | Material        |
