

### Properties

Application	For all pressure gauges with a flat gasket acc. to DIN 16258
Pressure range	Max. 16 bar, depending on the variant Pressure gauge valves should be used for higher pressures
Temperature	Max. +50 °C
Housing	Brass with a bare metal surface or stainless steel 1.4571
Handle	Plastic
Test flange	-

### Note

K-07201090, K-07201091 in acc. with DIN 16261-A, K-07201096, K-07201097 in acc. with DIN 16261-B <br>K-07201128, K-07201129 in acc. with DIN 16262-A, K-07201127 in acc. with DIN 16262-B  
Further information on request

### Description

It is useful to install a stopcock as a shut-off element between the pressure gauge and the pipe. When the lever is set to the »blow out« position, the medium is discharged into the atmosphere. Stopcocks with a test port allow pressure gauges to be simultaneously connected to the pipe.

### Additional information

Further measuring ranges on request

Version for panel mounting available on request. Version with max. pointer available on request

Item	Identification	Thread	PN (bar)	AF (mm)	Material
