

# K-AUFSTECKKANZEIGE DIGITAL

Digital plug-in display

## Properties

|                       |                                                   |
|-----------------------|---------------------------------------------------|
| Display               | 4-digit 7-segment LCD display. Digit height 10 mm |
| Operating temperature | 0 °C to +50 °C                                    |
| Input signal          | 4 to 20 mA, 2-wire                                |
| Electrical connection | Adapter for plug to DIN 43650                     |
| Accuracy              | ± 0.2% ± 1 digit of span                          |
| Protection IP         | IP 65                                             |
| Power supply          | From 4 to 20 mA loop of transmitter               |

## Note

Further information on request

## Description

The digital plug-in display is freely programmable and easily mounted, and can therefore be retrofitted in a very short time without any problems, even if the transmitter is already in use. No external power supply is required. Suitable for all 4 to 20 mA transmitters with a right-angle connector. Freely programmable by means of keys inside the display.

## Item

| Identification | Dimension                   | Measuring range                                                   |
|----------------|-----------------------------|-------------------------------------------------------------------|
| K- 07 20 10 28 | 48.5 mm x 48.5 mm x 35.5 mm | -1999 to +9999 digits (min. and max. values scalable as required) |
