

K-LP DOS AL

Variable-control blow guns, aluminium

HANSA FLEX

Properties

Operating pressure Max. 10 bar

Working pressure 2 to 6 bar

Operating temperature -10 °C to +50 °C

Note

Further information on request

Description

The blowing power is steplessly adjusted by the lever action and can be increased up to the maximum level. The blowing force can thus be individually controlled to cover a wide range of applications.
