## Electrically conductive hose

Properties

Applications

Electrical systems medical equipment robotics clean rooms in the semiconductor industry packaging machines powder coating machines

Dissipation of charges

Acc. to EIS Std. 541

Volume resistivity

Surface resistance

Temperature

-40 °C to +70 °C

Roll length

25 m

## Note

Further information on request

## **Description**

Ether based polyurethane hose. The hose is conductive (insulating). We commend using antistatic tube fittings to connect it.

## Item

| Identification | Ø hose internal | Ø hose external | Working pressure at 25 °C / 65 °C |
|----------------|-----------------|-----------------|-----------------------------------|
