

K-BALGGREIFER 2,5 SILIKON

Bellows suction pads, round, 2.5 folds, material silicone

HANSA FLEX

Properties

Properties	Soft, flexible folds
	Soft, tapered sealing lips
	Support surfaces on the bottom
	high suction power
	optimum damping effect
	very good adaptation to curved or uneven material

Application	Handling of highly uneven parts (e.g.tubes)
	Handling of highly sensitive parts

Note

Mini-sensor with housing and connection cable, analogue or digital output signal. Minimum size and low weight combined with high measuring accuracy. Further information on request

Description

Robust and hard-wearing suction pad with a single sealing lip. Used wherever objects (parts, packing materials, etc.) need to be lifted, transported, turned over or handled in some other manner. It is also ideal when it is necessary to compensate varying workpiece heights or uneven surfaces or to handle easily damaged parts. It acts as the connecting element between the vacuum generator and the workpiece.

Additional information

Attention: The price does not include connection nipples. Please order separately.
