## K-WV 3/2 5/2 NAMUR

3/2 and 5/2-way spool valves

| Properties                  |  |  |  |  |  |
|-----------------------------|--|--|--|--|--|
| Media                       | Air, neutral gases (filtered)                    |  |  |  |  |
| Differential pressure       | 2 - 10 bar                                       |  |  |  |  |
| permissible static pressure | Max. 10 bar                                      |  |  |  |  |
| Operating temperature       | -25 °C to +60 °C                                 |  |  |  |  |
| Electrical connection       | Connector socket Pg 9P, 3 x DIN 46244 / VDE 0580 |  |  |  |  |
| Housing                     | Aluminium, anodised black                        |  |  |  |  |
| Sealant                     | NBR and PUR                                      |  |  |  |  |

## Note

Further information on request

## Description

Pilot-operated 3/2 and 5/2-way spool valves with threaded port connections and a NAMUR style interface. The two conversion plates supplied with each valve allow the device to be adapted to a 3/2-way or 5/2-way function. The valve is turned on by a continuous signal. Turning off causes the piston to be returned to its initial position under pressure. Includes a manual operator as standard.

| Item           |              |        |            |    |                      |  |
|----------------|--------------|--------|------------|----|----------------------|--|
| Identification | Voltage      | Port 1 | Port 3 - 5 | DN | Flow rate<br>(L/min) |  |
| K- 07 15 00 01 | 230 V, 50 Hz | G 1/4  | G 1/8      | 6  | 700                  |  |
| K- 07 15 00 02 | 24 V DC      | G 1/4  | G 1/8      | 6  | 700                  |  |
