

# K-KONDENSA DRUKODRAIM

Drain for compressed air condensate

### Note

Further information on request

### Description

Ruggedly designed, cycle-controlled drain system for controlled drainage of compressed air condensate, proven thousands of times over and ready to use immediately. <br>In contrast with conventional clock generators, the blowing and pause times of the »drukodrain« are not set in seconds or minutes but in bar or m3/min, depending on the pneumatic system installed upstream. Efficient and reliable operation is assured. Benefits of »drukodrain«: Clock generator settings according to compressed air system: "bar" - for operating pressure, "m3/min" - for compressor or dryer capacity, Suitable for compressor / dryer capacities up to 20 m3/min, Integrated dirt pan and G 1/2 ball valve, 2 m connection cable with plug (230 V / 50 Hz) included.

Item		
Identification	Operating pressure	Voltage
K- 07 25 09 23	Max. 16 bar	230 V / 50 Hz
