## K-STOPPVENTILE IG

Stop valves, ports 2 and 3 with female thread

Properties				
Working pressure	Max. 10 bar			
Pilot pressure	1 - 5 bar, depending on operating pressure			
Media temperature	max. 70 °C			
Installation position	Any. Ring pieces can still be rotated 360° after the valve has been tightened			
Material	Nickel-plated brass			
Sealant	Perbunan			

## Note

Further information on request

## **Description**

For high-speed positioning and stop functions as well as emergency switching (e.g. emergency stop). If a control signal is present at port 3, air can flow to and from the cylinder. If no control signal is present, the air flow to and from the cylinder is shut off, causing the cylinder to stop in the required position. Stop valves are screwed directly onto the cylinder instead of the normal pipe connections.
