| Gun body           | POM                 |

## Note

Further information on request

## Description

Pressure regulating safety version. This gun is a more sophisticated version of our successful 38 Series! Ergonomic grip with a very high blowing force. Several possible hanging points thanks to the modified handle. Robust yet lightweight for a long service life. With its ergonomic design, the gun can be used by both left and right-handed users! The integrated tube regulator reduces the output pressure to a safe value in the event of blockage inside the tube or in case of back pressure (e.g. if the gun is placed on a surface or on the operator's skin).

## Item

| Identification | Connection                                   |
|----------------|--|
| K- 07 10 03 42 | Stem, I.D. 6                                 |
| K- 07 10 03 43 | Stem, I.D. 9                                 |
| K- 07 10 03 44 | Stem, I.D. 13                                |
| K- 07 10 03 45 | connection nipples for coupling NW 7,2 - 7,8 |
