

K-RUNDDUESE LAERMARME

Low-noise round nozzles

HANSA FLEX

Note

For noise, air consumption and blowing force values, see diagrams 1-17 in the technical information.

Description

If correctly designed, these noise-reducing nozzles guarantee a lower noise level than conventional one-hole types with an identical blowing force. They are usually fitted with a noise-reducing plastic insert and they are recommended by the German BGIA (Institute for Occupational Safety and Health).

Item					
Identification	Thread	Length (mm)	Ø nozzles external (mm)	Material	Diagram
K- 07 10 09 56	G 3/8 male	55,0	11	Nickel-plated brass	3
