

K-KOMBIDUESE LAERMARME

Low-noise combination nozzles

Properties

Pneumatic Type G 1/4 male

Note

For noise, air consumption and blowing force values, see diagrams 1-17 in the technical information.

Description

If correctly designed, these noise-reducing nozzles guarantee a lower noise level than conventional one-hole types with an identical blowing force. They are usually fitted with a noise-reducing plastic insert and they are recommended by the German BGIA (Institute for Occupational Safety and Health).

Item				
Identification	Nozzle width (mm)	Length (mm)	Material	Diagram
