

# K-EINGANGSPL VENTILINSEL HDM

Input plates for HDM valve terminal

**HANSA FLEX**

## Properties

|                         |  |
|-------------------------|--|
| <b>Media</b>            | Filtered, unlubricated or lubricated compressed air.<br>If lubrication is used, it must be continuous. |
| <b>Working pressure</b> | Max. vacuum 10 bar (external pilots), 3 to 7 bar<br>(internal pilots as standard)                      |
| <b>Pilot pressure</b>   | 3 - 7 bar  |
| <b>Temp. range</b>      | -10 °C to +60 °C   |
| <b>Flow rate</b>        | 200 NI/min (Ø 4), 500 NI/min (Ø 6), 800 NI/min (Ø 8)   |
| <b>No. of pilots</b>    | Max. 16 (e.g. 16 spring return valves)   |
| <b>Manual control</b>   | Latching (bistable), Monostable (non-latching)<br>version also available on request                    |
| <b>Power input</b>      | 0.6 W per pilot  |
| <b>Protection IP</b>    | IP 65  |

## Note

Further information on request

## Description

These compact valve terminals, with a maximum flow rate of 800 NI/min, can be individually adapted to the specific conditions of each application thanks to the wide range of functions and various input and intermediate plates. Since each valve terminal is a customer-specific combination of a series of individual elements, the catalogue only lists the available input, intermediate and end plates as well as the different valve discs and the 25-pin multi-pole connectors.

## Additional information

Important: The scope of supply does not include a connector. Please order separately.

## Item

| Identification | Function                     | Connection                  |
|----------------|------------------------------|-----------------------------|
| K- 07 15 22 49 | Standard, internal pilots    | Multi-pole                  |
| K- 07 15 22 48 | External pilots, dual supply | Multi-pole                  |
| K- 07 15 22 54 | Standard, internal pilots    | With integrated Profibus DP |
| K- 07 15 22 53 | External pilots              | With integrated Profibus DP |
