K-AN 302-60

Lock AN 302-60

Properties

Application	Screw locking without pretreatment
Strength	High strength
Viscosity	Medium viscosity
Thermally stable	-60 °C to +180 °C

Note

Further information on request

Description

High-strength bonding of passive materials such as stainless steel or aluminium, no pre-treatment required.Thermal stability: -60 °C to +180 °C- Reduced assembly time- High strength- Handling strength: just 2 to 5 minutes- Final strength: just 2 to 4 hours- No need for pre-treatment with activator and therefore no additional emissions due to solvents
