

K-DURCHGANGSVERTEILERDOSE

Through porting box with through-hole thread, PN 15

HANSA FLEX

Properties

| | |
|----------------------|--------------------------------|
| Operating pressure | Max. 15 bar |
| torque mounting hole | 4 Nm |
| torque brass thread | 12 Nm |
| Temp. range | -10 °C to +50 °C |
| Housing | Glass fibre-reinforced plastic |
| Thread | Brass |

Note

Further information on request

Description

1, 2 or 3-way porting boxes made of high-strength glass fibre-reinforced plastic for a wide range of applications. Available with up to 3 couplings and 2 inlet thread sizes. Optional through-hole thread at the bottom to facilitate the passage of the medium. All porting boxes have a robust, brass threaded insert for high tightening torques, TÜV certified. Suitable for almost any pneumatic application.

Item
