# K-ELKT SIGNALGEBER D

Solid state sensor D

## Properties

| | |
|---|---|
| **Electrical inlet** | axial |
| **Cable lenght** | 3 m |
| **Series** | D |

## Description

Electronic transducer, series D-M9P, round profile groove, version: with LED, electrical input port axial, 3-wire PNP, with 3.0 m cable

## Item

| Identification | Design | Designation |
|---|---|---|
| **K- 07 50 00 03** | with LED, with grommet, without connector | electronic signaler |
| **K- 07 50 00 04** | with LED, with M8 connector (3 pin) | electronic signaler |
| **K- 07 50 00 05** | with LED, with grommet, without connector | electronic signaler |
