

K-ELKT SIGNALGEBER D

Solid state sensor D

| Properties | |
|------------------|-------|
| Electrical inlet | axial |
| Cable lenght | 3 m |
| Series | D |

Description

Electronic transducer, series D-M9P, round profile groove, version: with LED, electrical input port axial, 3-wire PNP, with 3.0 m cable

| Item | | |
|----------------|---|---------------------|
| Identification | Design | Designation |
| K- 07 50 00 03 | with LED, with grommet, without connector | electronic signaler |
| K- 07 50 00 04 | with LED, with M8 connector (3 pin) | electronic signaler |
| K- 07 50 00 05 | with LED, with grommet, without connector | electronic signaler |
