

Properties	
Design	Ball locking Type "V" with vale spool pilot-controlled - single-acting
Material	Housing: Galvanised steel Inside parts of steel
Operating pressure	max. 700 bar

Description

Type HK RH *** V with pre-release, a polished seat valve spool is used with ball check valve. This will pre-opened when unlock, the throttle effect allows a bumpless relaxation of oil volume. Mainly used for high operating pressures and high flow rates. Pilot pressure ratio see diagram
