

### Properties

Application	Agricultural technology Industry
Connection 1	BSP cylindrical internal threads
Sealing form 1	for screw-in pins with shapes A, B and if necessary E
Standard	complies with ISO 7241 series A
Operating pressure	max. 250 bar
Volumetric flow	max. 240 l/min, in combination with SKS Agrar
Temp. range	-30 °C to +100 °C
Material	Steel
Surface	electro galvanised

### Note

With standard threaded connections in determining the operating pressure of the maximum rated pressure is taken into account.

### Description

The consistent refinement of this plug fulfils the extreme requirements demanded in practice.

### Additional information

The coupling Agrar exceeds the requirements of ISO 7241-1 series A and ISO 5675 for the agricultural sector and is uncompromisingly designed for maximum efficiency. The Agrar male connector and Agrar sleeve system achieves a maximum volumetric flow of 240 litres per minute - a record level. Operation in heavy-duty tractors and implements such as tippers, is now safe.

The coupling sleeve is available in two different overall lengths and is therefore compatible with the common commercially available built-in couplings.
