

**Properties**

<b>Design</b>	Vertical installation position, gas side top
<b>Operating pressure</b>	max. 350 bar
<b>Temp. range</b>	Standard version -15 °C to +80 °C
<b>Material</b>	Bladder: NBR standard version

**Note**

Gas charge pressure  $p_0$  – between 0.9  $p_1$  and 0.25  $p_2$  ( $p_1$  = min. system pressure,  $p_2$  = max. system pressure)

CE label for all bladder accumulators

Repair kits, see HK BLAK REPKIT

**Ordering information**

The accumulators will be delivered uncharged from stock. N2-chargings according to customer requirements arise separate costs.

pmax = max. working pressure

**Accessories**

<b>HK SAB M</b>	Safety and isolation block with manual relief
<b>HK CD</b>	Accumulator clamp
<b>HK CE</b>	Accumulator clamp
<b>HK KONS</b>	Console for bladder accumulators
<b>HK AS</b>	Accumulator adapters for safety and isolation block
<b>HK ADA S</b>	Measuring adapter for pressure accumulator

**Spare parts**

<b>HK BLAK REPKIT</b>	Repair kit for bladder accumulator
