

Properties				
Design	internal pressure control valve			
Operating pressure	max. 700 bar			
Connections	3/8" Female NPT			
Material	Aluminium housing			
Scope of supply	Including manometer			

## Note

Attention: Please observe separate safety precautions for working with 700 bar equipment (see technical information)!

## Description

The use of 2-stage pumps is recommended for cylinders with large oil volumes.

Hand lever can be used as carrying handle after locking.
