

### Características

|                           |   |
|---------------------------|---|
| Conexión 1                | Rosca exterior métrica, cilíndrica                |
| Forma de obturación 1     | Junta de estanqueidad                             |
| Conexión 2 + 3            | Rosca exterior métrica, cilíndrica                |
| Forma de obturación 2 + 3 | Cono interior de 24°                              |
| Construcción              | Racor giratorio sin estrangulación (alta presión) |
| Forma constructiva        | en T  |
| Volumen de suministro     | Tubuladura con tuerca de racor y anillo cortante  |
| Material                  | Acero fino  |

### Nota

Para obtener información acerca del montaje, la instalación, la carga de presión y las temperaturas de servicio admisibles, consulte la Información técnica de los racores de tubo.

### Indicaciones para pedidos
