

Características

| | |
|-----------------------------|----------------------------|
| Construcción | Codo de tubo 90° |
| Norma | DIN 2391/C |
| Material | Acero ST 37.4 NBK (1.0255) |
| Protección de la superficie | fosfatado y lubricado |

Descripción

Codos de tubo 90° sin soldadura para pérdidas mínimas de flujo

Artículo

| Denominación | Ø exterior tubo (mm) | Ø interior (mm) | S (mm) | Radio de flexión R (mm) | a (mm) | b (mm) | L1 (mm) | L2 (mm) |
|--------------|----------------------|-----------------|--------|-------------------------|--------|--------|---------|---------|
| RB 14-1.5 | 14,0 | 11,0 | 1,50 | 30 | 200,0 | 40,0 | 230,0 | 70,0 |
| RB 15-1.5 | 15,0 | 12,0 | 1,50 | 30 | 200,0 | 40,0 | 230,0 | 70,0 |
